

About the Role

We're seeking an experienced, motivated, and collaborative Montney Development Engineer to join our Asset Team in Calgary, Alberta. Reporting to the Manager, Montney Asset, you'll contribute to technical and strategic initiatives across our Montney portfolio, including capital stewardship, planning, reserves, and development optimization. You'll work on our core assets in Pouce Coupe and Gordondale, with exposure to emerging projects in Elmworth. As part of a results-driven team, you'll help drive a strategy focused on maximizing infrastructure, improving capital efficiency, and meeting global demand for clean, reliable natural gas. The ideal candidate thrives in a dynamic environment, values continuous improvement, and is eager to make a meaningful impact across both established and emerging areas of the business.

Key Responsibilities

In a lead or supporting capacity, you will:

- Coordinate capital and production budgets with Business Development and Operations Teams
- Support long-term development planning and asset strategy
- Contribute to reserves evaluation and reporting with internal and third-party teams
- Collaborate with geoscience and operations to align development execution
- Prepare and present technical reviews to senior leadership
- Conduct competitor analysis to inform strategic decisions
- Enhance field development plans focused on recovery and economic performance
- Drive continuous improvement through innovation, optimization, and performance tracking

Qualifications and Skills

- P.Eng. Designation with a current licensure under the Association of Professional Engineers and Geoscientists of Alberta (APEGA)
- 5–10 years of Montney Development Experience
- Strong understanding of pipeline systems, natural gas/liquids processing, and storage infrastructure
- Ability to manage multiple priorities and work in a fast-paced environment
- Proficient in ValNav, Spotfire, and Aucerna Execute
- Strong analytical, organizational, and communication skills
- Advanced judgement, problem-solving skills and high attention to detail
- Collaborative mindset with a passion for innovation and improvement

What We Offer

- Competitive compensation
- Generous benefits and paid time off
- Opportunities for continuous development and learning
- A collaborative, supportive, and innovative multi-disciplinary team

Application Process

Interested applicants who meet the criteria's outlined above are invited to submit their resume to careers@birchcliffenergy.com with the description "Montney Development Engineer" in the subject line of the email.

Candidates must be eligible to work in Canada without sponsorship. We thank you in advance for your submission; however, only those selected for an interview will be contacted.
