Job Description

Birchcliff Energy Ltd. ("Birchcliff") is an intermediate oil and natural gas company based in Calgary, Alberta that is engaged in the business of exploring for, developing and producing natural gas and liquids. All of Birchcliff's assets are located in Alberta, where it is focused on the Montney/Doig Resource Play. Birchcliff's vision is to be an industry-leading producer of profitable and sustainable natural gas and liquids, with the objective of increasing shareholder value over the long-term. Birchcliff has a strong record of success, built on its core belief that outstanding people, combined with a great corporate culture, creates a winning environment. Birchcliff offers competitive compensation, stock options and benefits to its employees.

The Birchcliff operated 16-31 Gordondale Gas Plant is currently looking for a safety-oriented Operator at the Plant located west of Gordondale, Alberta. Reporting to the Senior Plant Foreman, the Plant Operator will be responsible for the safe and efficient operation of the equipment and processes. This is a safety sensitive position and will be subject to the relevant requirements of the Birchcliff Drug and Alcohol Policy.

Requirements and Responsibilities

- Environment, Health and Safety must be a top priority – ensure that plant operations are compliant to health, safety and environmental regulations and Birchcliff policies and procedures;
- Manage operations of plant and processing equipment – Delta V Control System, compressors, separators, pumps and processing equipment (amine sweetening, Mole Sieve Dehydration, Deep-cut liquid recovery, condensate stabilization, acid gas re-injection) including performing routine checks and maintenance;
- Monitor equipment performance, take corrective action, and initiate work requests for area of responsibility;
- Assist in identifying deficiencies and provide recommendations and implement modifications to existing procedures to ensure optimal performance standards;
- Ensure that operations are carried out in a cost-effective manner;
- Prepare and input daily production reporting in our FDC program.
- Manage on site contractors, this includes writing work permits, conducting hazard assessments and directing contractors at the worksite;
- Will be required to work 7 days on and 7 days off shifts (12-hour shift) rotating days and nights. Must be willing to work overtime when required.

Qualifications

- Minimum of 3-5 years' operating experience in a Gas Plant environment;
- 4th Class Power Engineering Certificate required;
- PFO/GPO Certification is considered an asset;
- Common Safety Orientation, First Aid and CPR, H2S Alive, and other relevant courses and tickets;
- Demonstrate effective communication with operators, contractors, office teams and management staff;
- Proficiency with computer systems and software - a solid working knowledge of MS Office.
- Possess strong attention to detail with a high level of accuracy;
- Strong critical thinking skills with the ability to manage and assess risk;
- Excellent organizational and time management skills, in order to manage multiple priorities and competing demands with tight timelines.

Application Process

Note that this position is located in Birchcliff's Gordondale Area. The ideal candidate must reside in the Spirit River, Dawson Creek or Pouce Coupe area.

Interested applicants are invited to submit their resume to careers@birchcliffenergy.com with the term "Plant Operator" and their name in the subject line of the email.

We thank you in advance for your submission; however, only those selected for an interview will be contacted.
